**Subject:** Re: Dimock Residential Groundwater Site

Judy,

Jay just told me the packets that were validated was a review of what Test America did for PA a couple of years ago. It's separate from our new analyses. Hope this helps.

Elaine

**Subject:** Dimock Residential Groundwater Site

I have a question on the Dimock situation. I placed in your box today 2 Dimock Oversight letters with no SDG#, no DAS or RAS #, only a Case#180-2644-01 done by Test America Lab and which none of the matrixes on these match any of the DAS's listed below. I attempted to match up matrixes on the letters to the below R numbers and only found one matrix that matched.

My question is whether there should be DAS and/or RAS numbers on the Dimock at all? The most recent one that Ed Messer is working on only gives the Case #180-3644-01. Can you shed some light on whether these "R" numbers will be used? I am aware that not all are being done by us and that makes a difference.

Dan, I am not sure how you will be able to match the current letters generated by these Oversights. FYI as of today, [Redacted] has not been generating any QA Slips for this site, the only reference I have to go by for information is the Analytical Request Forms.

DAS#  
R33907 Region 3  
R33908 Isotek Lab  
R33909 Region 2  
R33910 NAREL  
R33911 Region 9  
R33912 PACE  
R33917 Isotek - Tier 4

Thanks for your assistance. I did approach Colleen, Elaine and Carroll today with no luck. They all indicated you or John were my best source.

Sincerely,

Judy Battee
